Research Subgroup Overview

The Research Subgroup is composed of members representing various stakeholders in the UK Cannabis and Hemp CBD sector. Its primary aim is to commission and execute research that supports the overarching goals of the Council.

Key Objectives

The subgroup will focus on the following areas:

- 1. **Health Economic Analysis**: Conducting cost-benefit analysis and long-term economic evaluation to assess the economic impacts of cannabis-related healthcare.
- 2. **Patient and Prescriber Engagement**: Raising awareness among patients and healthcare providers about conditions beyond pain and anxiety.
